FIRST DATA

At First Data Canada, we look for every opportunity to help customers leverage more value from each transaction — developing new solutions to make them simpler, faster, safer, and more rewarding.

If you're looking for a reason to move your payment processing to First Data, this could be it! First Data knows that there are a lot of offers out in the marketplace. Sales reps will often walk in the door with an appealing "flash rate" — the first thing that businesses see about any program but not always the most accurate indicator of savings.

First Data Canada offers merchants a wide selection of devices and payment options, so you never have to say "no" to a customer's preferred payment method. Plus, the Chamber has negotiated market-leading rates for our services, which are not open to seasonal price adjustments. If you have questions on the First Data offer or require additional information on this Affinity Program to help your business be more competitive, contact **Mohamed-Ali Kessentini** at 905-602-3548 or visit www.firstdata.com.
