---

We understand that many residents are upset and concerned by the recent events in our community. We share those concerns and are taking this matter seriously.

We continue to meet with community leaders, neighboring municipalities, law enforcement and other partners to discuss solutions and identify ways we can work together to improve safety in our community.

We encourage everyone to remain observant. If you see suspicious activity or witness a crime, please report it to the RCMP at 204-768-2324. When making a report, we also encourage residents to request a file number for reference and follow up purposes.

Community safety is a shared responsibility, and we appreciate the cooperation and support of our residents as we work through these concerns together.
